

# CLEAN COAL TECHNOLOGIES 2019 CONFERENCE 3-7 JUNE, HOUSTON

For its 9<sup>th</sup> edition, the CCT conference series heads to the USA for the first time, in association with the United States Department of Energy. In recognition of its position at the heart of the country's growing carbon capture and storage industry, the vibrant city of Houston will play host to CCT 2019.

As the IEA Clean Coal Centre's flagship event, the CCT series has established itself as a leading forum for showcasing state-of-the-art coal research, with previous editions assembling 250 delegates from 30 different countries. A broad mix of industry, academic, and government representatives, combined with its comprehensive scope, creates an ideal opportunity for networking within the international coal community.

CCT 2019 will be held at the exclusive **Hyatt Regency Houston Galleria**, where three days of technical sessions and keynotes will cover the research, demonstration, and deployment of clean coal technologies.

## SPONSORSHIP OPPORTUNITIES

As CCT 2019 is a non-profit event, the IEA Clean Coal Centre welcomes sponsors to help maintain low costs for delegates. The conference provides sponsors with unique access to a truly international audience of key figures within the coal industry, as well as investors and policy makers.

A range of sponsorship packages are available which may also be tailored to specific requirements.
